

VISITOR AGREEMENT

Welcome to Mountain View Hospital

Due to the Covid-19 pandemic, we've made changes for everyone entering our facility. These changes have been made to take better care of our community and to honor our commitment of providing safe and compassionate care to your loved ones.

- Masks must always be properly worn by anyone, at all times, in all areas and rooms in the hospital. This is to ensure we are all protecting one another from droplets, which can carry infection from person to person.
- Everyone entering the hospital will be screened. The screening may include questions about recent travel and any symptoms you may be experiencing such as cough, shortness of breath and fever.
- International or domestic travel may disallow you from entering the premises.
- If you have any symptoms of Covid-19 such as high fever ($\geq 100^{\circ}$ F), shortness of breath, sore throat, cough, vomiting or diarrhea, loss of sense (taste or smell), chills; you may be asked to leave the premises.
- Patients can have only 1 assigned visitor throughout the entirety of their stay.
- Visitors who enter the hospital will be expected to remain within the room of the patient they are

The precautions outlined above will be followed in order to reduce the risk of virus transmissions to you, your loved ones and the staff who will be taking care of them during their stay. Failure to comply with these changes can lead to an unsafe environment and can put everyone in the hospital at risk.

Thank you for your understanding during these uncertain times.

I agree to comply with the precautions outlined above while I am a visitor at Mountain View Hospital.
